At Skerjagarður there are two departments, the younger department Ból where children between the age of 18 months to two and a half years old.

The older department Bakki has children between the age of two and a half and six years old. Age intermixture depends on the circumstances at any given time.

Skerjagarður preschool is located in the middle of a residential community. The nature in Skerjafjörður is fascinating with many recreational areas in short distance from the school. These areas facilitate outdoor teaching. The preschool is on two levels along with a cellar and a loft. The floors are divided by the departments. In the cellar/Gleðigarði is a good facility for visual creativity and to work on larger projects. We believe it to be beneficial to have a great arts and crafts room where the pieces and artworks can develop over a long period of time. In Gleðigarður the children also have organized musical moments as the facility is convenient for physical activity.

## Bakki

Bakki has children between the ages of two and a half to six years old. Age intermixture depends on the circumstances at any given time. Bakki places emphasis on professional work where the individual enjoys himself in a safe and loving environment. We believe that children learn the most through their own experience and discovery which benefit child development. Therefore, discovery education is a good expression path for the child to present its ideas and experiences in words and acts in different ways. Music is an important part of our work in Bakki. A lot of singing takes place as well as organized music moments. We emphasize on happiness and positivity in all our work at Skerjagarður.

## Ból

Ból consists of children between the age of eighteen months and two and half years of age. Welfare, safety and care of the children are kept in mind in all the work done in Ból. The children are treated with respect as well as their needs. Good communication between parents and teachers is important as it is the foundation of preschool job. General wellbeing and joy impacts the life and existence of every individual and therefore we strive to ensure happiness and positive atmosphere at Ból.
